## PREFACE

Before I sat down to write this, GOD, who has taught me from my early childhood, explained to me in a vision the relations between the environmental problems. I saw a pilot flying a plane on a high-altitude flight and not being able to find the lever for the oxygen supply ..., and I saw the earth in comparison as an ultra-modern grandiose spaceship flying through the universe. Dark figures, disloyal and ignorant people flew it by false operation of the controls and manipulation heading towards a catastrophe ... HE called my attention to the various different terrible effects of, for instance, the experiments with the atomic bomb and of many more other things.

This letter of simple though bribing logic requires no academic knowledge, but merely simple common sense. We will show here in the briefest manner the only chance of how mankind with his environment might be rescued from the seemingly certain catastrophe, no matter of what kind, which is born through carelessness, through lies and deception, through pride and lust of power, through ... through so much evil.

The author

---

## THE AEROPLANE

To the pilot it is a matter of course that he can only demand of his aeroplane what it was fitted for by the builder or inventor. He also knows that he must operate it strictly according to the directions of the design engineer. Therefore of course every inventor or builder publishes along with his creation an instruction booklet. And the more complex and enormous the invention is the more important are the directions for use and their consistent compliance. For even the smallest lever can decide on life and death. What is the use to the ignorant of indeed bringing the aeroplane to a certain height without professional knowledge, yes even being able to fly so high that he would need to switch on the oxygen supply, but, o fright, does not find the small lever? – He will suffocate and make a fatal crash although he miraculously managed to fly – A catastrophe!

**SO PLEASE, ONLY WITH THE  
DIRECTIONS FOR USE  
OPERATE THE FLYING-MACHINE!**

## THE SPACESHIP

GOD created besides many other things heaven and earth with the cosmos extending beyond the reach of the human eye and all visible and invisible things. Among all these countless forces and powers of creation is one tiny yet miraculous speck of dust: PLANET EARTH! For us people, however, this speck of dust is a huge spacecraft, or if you will: spaceship planet earth. This spaceship flying through the cosmos is of such a complex and massive build with thousands of known and unknown levers, which are of absolutely vital importance for the existence (every kind of tree, species of animals, every existing mineral, etc. is an indispensable lever), that the Creator, the builder of the spaceship, sent along directions for use as complex as they are tremendous. The lives of us all depend on the compliance with these directions for use!

**SO PLEASE, ONLY WITH THE  
DIRECTIONS FOR USE  
OPERATE THE SPACESHIP!**

---

## A small example from the

# DIRECTIONS FOR USE OF THE DIVINE CREATOR!

*«Man shall be king of the earth with all that lives and stirs on it and is. He must reign in wisdom and with love, because all this is MINE, and I entrust it to every son of man that he may share my divine creative power.»*

\*

Unfortunately there is a faulty translation of the Bible having serious consequences in Gen. 1,28 (as also in many other places), because it is written: „... replenish the earth, subdue it and have dominion over ...“

*«The earth is a living thing created by ME, a whole animated by ME. She does not possess the soul like man does, who through my BREATH was given a soul of his own and through that became my image, but she is alive. Quite particularly everything that is seed-bearing and multiplies so, no matter in what way, be it animal or plant. Therefore she needs quite different maintenance and care from a mechanical or an electronic machine, an aeroplane or spaceship. She also needs not just legal and political desti-*

nations. No, she needs continuing and ever-renewed life. Moreover, it is very important that everything should be equally present in microcosm as well as macrocosm as I have put it into. For each thing, and even if it is only stone, I have given a function in order to maintain the harmony as a whole.»

\*

«Particularly the tree I have destined to renew the breathing air of man. Even the tree is animate and as a result possesses a feeling, if somewhat weaker than the animal. In order to be able to live healthily, he therefore needs not only the elements, but also above all animate life of his kind about him. In this way he needs the buzzing of the

bees and insects, he needs the twittering of the birds and he needs the inartificial fragrance proceeding from flora and fauna. He needs that and much more unknown to man as I as his Creator have devised and created it!»

\* \* \*

So far the small extract from the „DIVINE DIRECTIONS FOR USE“ of the Creator.

Many more relations hidden from and completely unknown to man could be shown.

---

---

## HOWEVER,

The Church has allowed these living and animating directions for use to wither to a dry law and letters.

### HAIR-RAISING EXPERIMENTS

The pilots (politicians, government and even the church-leaders, etc.) of the spaceship planet earth blamably disregard the directions for use, yes a majority of these very persons turn them into ridicule and still others only slightly know them or not at all. Still others start hair-raising experiments unknowing of the sensitivity with which the spaceship flying freely in the universe will react to that. And almost everybody ventures to tamper with it without knowledge. Air is getting scarce. – A catastrophe is looming! And still all believe that they know where

#### THE LEVER FOR THE OXYGEN SUPPLY

is and how to operate it, but are feverishly looking for it in the totally wrong place. They believe with fewer cars, with speed limitations for motor vehicles, with reduction of industrial waste gases, with the preservation of the forests and other things they can come to grips with the problem. However, he who only knows about these and similar facts definitely knows too little. As a pilot or an executive worker he would be a 100 per cent danger to all inhabitants of the earth. Because he would unavoidably be shipwrecked. Shipwreck with the spaceship planet earth ... How can the

passengers possibly remain silent in these circumstances!?

The spaceship is now already responding almost

### **LIKE A SCRAP HEAP!**

For endless years man has no longer been maintaining the spaceship EARTH, but has been exploiting it merely for his enrichment and wasting huge areas and elements. The flora has been destroyed and as a result also the world of insects dependent on it. Consequently the birds in their turn lack the protein as a necessary food source and they become extinct. Through this dwindling of species still many other creatures die. – It is a terrible snowball, an interlocking dying off of the entire vegetable and animal world, which according to the Creator we must cherish, tend and keep.

Still, action might be taken in the very nick of time, namely by those who exactly know the directions for use of the builder and Creator and consistently conform to them or those who by HIMself were trained for it, called and authorized to do so.

### **SIN, KILLER OF LIFE!**

Add to this that owing to the human rebellion against GOD's directions for use (read sin) nature, which, as we know, is animate, rises in accordance with her nature against this sinning or quite simply dies off. Her animate being cannot

---

exist in the midst of such horrible piling up of sin. Or let us say it more concretely: She gives out because she is not being maintained as intended by the Creator!

However, the self-aggrandizement or the ignorance of the responsible goes on and so the breaking-up of the spaceship is frivolously continued. Let us take the example of

experiments with the atom bomb.

People do seem to be informed of there being no danger – at the moment! – of radioactive radiation with nuclear tests. But no one informs them that the tremendous shocks caused by that produce catastrophic effects. – GOD showed me that the earth's so-called continental shelves have so much shifted by shocks caused by man that further shocks will lead to increasingly catastrophic earthquakes and sooner or later entire cities and countries will not only be torn up but also be sunk. A further danger is also that with every shock the planet is more and more thrown out of balance, as if they adjusted the stabilisers of a spaceship wrong. That means: The planet is going into a spin through the universe and will sooner or later capsize! The consequences are incalculable!

## **MARCHING PAST A FOREIGN FLAG**

The opponent of GOD is undertaking everything, for very certain reasons, to destroy EUROPE religiously, morally, culturally and financially. For how much are the European countries obviously financially bled, and the leading

politicians feel even flattered about that and consider themselves heroes and patrons when they are allowed to throw the money – our money – in the mouth of some sponger or other. Obsequiously they go to the dictator „Brussels“ in order to sell the personal pride and the patriotic sense of honour for a mess of pottage or thirty cursed pieces of silver: marching past a foreign flag!

## **HERD ANIMALS**

Man has become a herd animal because he no longer bears the light of GOD in himself, but the stamp of an unknowing, blind, deaf, and dumb herd animal. In order to keep this herd animal further in its place and give the appearance of action, the Church as well as the governments are carrying on one public dialogue after the other to thus kindle the so-called effective, yet deceiving

## **PAPERFIRE**

From this paperfire nothing lasting can emerge. Yet with every flaming up of the burning paper the crowd ever and again cries out: „WE DO HAVE FIRE AGAIN!“ In this way things are pushed further and further with this ignorant mankind, no longer shone upon by the creative Spirit. – Poor, deserted deceived mankind!

---

## **THE SALVATION**

GOD let me know HIS willingness as the CREATOR to helpfully intervene. That is to say on the part of the people a complete about-face towards HIM and HIS main commandment should take place as we know it e.g. of Nineveh! The Church in fact ought to call on the people for this, for she was entrusted with the „DIVINE DIRECTIONS FOR USE“.

The earth, in common with the whole creation, has been created by GOD. Consequently she can only be explored, led and operated with His benevolent help. The LORD GOD, however, gives it only to those who are His and especially those who have preserved towards HIM a wondering childlike heart. To the children HE ever so much loves to explain all that HE has created and also what can be created out of that for the benefit of man.

### **GOD REVEALS HIMSELF TO THE LITTLE ONES**

Oh yes, truly, truly, if only the scientists would with respect make researches into the things created by GOD in order to make it known to the people! Then GOD would willingly reveal Himself to such researchers and scientists or just as was said: send them His „DIVINE DIRECTIONS FOR USE“. But from the haughty as well as the arrogant, the puffed up, the self-seeking man GOD secludes Himself.

With loving readiness, however, He reveals Himself to those who love Him like children. Therefore the words of JESUS: „I praise You, FATHER, LORD of Heaven and earth and all created things, that You have hidden these things from the wise and prudent, but have revealed them to the little ones! Yes, FATHER! For so it pleased You!“

*Matthew 11, 25-26*

The others have their successes too, certainly, but for the most part GOD's blessing lies not on them, and so sooner or later ill success will follow.

## **THOSE GREAT IN THEIR HEARTS**

It will always be like that. GOD does not take those who are great in their minds as His tools, but those who are great in their hearts! Those who like children honour GOD selflessly and love HIM with all their hearts, more than anything else! If the world does not soon choose such people as its leaders, she will be heading for terrible times. Highly educated, proud people cannot persuade GOD to intervene, but souls that love GOD above all can!

## **TO ERR IS HUMAN**

What hinders you then so much, you scientists and leaders, from asking HIM? Are you not able any more or are you afraid you will have to recognize how much you have strayed from what JESUS has taught and wanted? – But why so? To err is human and will always be forgiven as soon as man confesses it and makes amends as far as possible! But if he does not want to confess out of pride or obsti-

---

nacy, it is a sin against the HOLY SPIRIT! This sin will not be forgiven as long he persists in it, no matter what or who someone is or what office and dignity he holds.

## **THE FREE WILL OF MAN**

GOD wants to prevent war, catastrophes and all the earth's grief. For that reason he keeps calling tools as His mouthpieces, who must warn mankind. Yet the opponent smuggles in as a countermove lots of seeming false tools so that the true messengers of GOD are no longer believed, rather are they treated all alike.

And so man does not listen to the callings of the Creator and disregards His holy guidelines. Thus man – man all alone – is to blame for the divine judgements, for all the negative things such as war and catastrophes. Then why is GOD expected to prevent these evils? GOD did give man His saving guidelines (directions for use) as well as the free will!

\* \* \*

## AFTERWORD

Dear reader, in this letter „DIVINE DIRECTIONS FOR USE“ I have shown of my knowledge, with which GOD has equipped me, only a tiny little speck of dust. – And here too, this „speck of dust“ will remain a sealed book to the curious as well as the one puffed up with knowledge. But those who with a childlike heart are seeking after truth with GOD, to them GOD will reveal Himself and, as far as HE wants, make known the hidden secrets of creation.

Once GOD spoke to me: „Be you my Sword-Bishop! You have been placed in order to uncover the secret machinations of Satan, to teach the ignorant and to renew the Church in the HOLY SPIRIT!“

The roman catholic Church was once my beloved mother. And yet through too many things incompatible with GOD this Church has become the spawn of dark machinations, or as GOD Himself says: „A whore and an adulteress you have become! My holy Covenant you have broken!“ (*abstract from „In the Name of GOD TRINITY!“*) And JESUS told me as I walked down the steps of Saint Peter’s with a heart distressed at such decay of the Church: „Nicholas, take my Church with you!“ HE also let me know: „With children, cripples, old people, and sinners I will rebuild my Church!“

---

So not with the learned men, who refer to their studies and human knowledge, instead of to the professor of professors, the HOLY SPIRIT! HE alone is the Omniscient, for HE is GOD!

Know all of you that I do not in the least entertain any desire for office and title regardless of their qualities. If GOD has no other intentions, I would like to continue to be only an „episcopus vagabundus“ at the service of GOD as His Sword-Bishop of JESUS CHRIST!

What may become of this letter is no longer my decision, but the decision of each individual reader.

Now may GOD give every reader of these lines the richest grace of insight! For that I ask and to this end bless all in the power of GOD. Amen!
